Report McCall Measure Out  
Without Recommendation  
Shortly

## FARMING INTERESTS PROTEST

Agricultural Complaints Will be Heard  
Monday and Tuesday. Promises  
to Taft Will be Kept by  
the Committee.

Washington, D. C., Feb. 18.—The  
finance committee of the senate was  
called together today to consider the  
McCall bill, to put into effect Cana-  
dian reciprocity. Three or four days  
probably will be consumed by the  
committee in reaching a decision.

It is said the indications are the bill  
will be reported without recommenda-  
tion, this object being in the interest  
of an early transfer of the right to  
the floor of the senate, in accordance  
with promises made to President Taft.

The ardent supporters of reciprocity  
on the committee are Cullum, of Illi-  
nois, Republican, Money, of Missis-  
sippi, and Stone, of Missouri, Democrats.

It was decided to limit the recip-  
rocity hearings to Monday and Tues-  
day. Practically all requests for hear-  
ings came from agricultural interests.  
The committee was in session an hour  
and a half, and adjournment was  
taken until Monday.

## HOCKEY GAME IS OFF.

## Plans for Mohawk-Portage Lake Game for Palestra Off.

Negotiations which have been pend-  
ing for several days for a hockey  
game to be played at the Palestra next  
Wednesday evening, between the  
Portage Lake and Mohawk-Calumet  
teams are off. According to the local  
promoters, the terms offered by the  
Portage Lake management are unsat-  
isfactory and call for guarantees  
which have never before been de-  
manded in the hockey relations be-  
tween the two towns. For this reason  
those back of the project have called  
off all plans and are now en-  
deavoring to arrange terms with the  
Illinois Athletic club team of Chicago  
for a game to be played here on  
Thursday or Friday evening.

A rubber roller has been inserted in  
a cigarette paper holder by a French  
inventor to push out a single sheet at  
a time.

## BRAVE ACT IS COMMEMORATED

SISTER OF LATE ENSIGN JOHN R.  
MONAGHAN CHRISTENS BOAT  
NAMED IN HIS  
HONOR.

Newport News, Va., Feb. 18.—Amid  
the shouts of several thousand specta-  
tors, the fluttering of handkerchiefs,  
and the blowing of whistles, the tor-  
pedo boat destroyer Monaghan was  
launched today at the shipyard of the  
Newport News Shipbuilding Company.  
The launching took place under most  
auspicious circumstances. When the  
army of workers knocked the last  
shores from the cradle of the vessel,  
Miss Ellen Monaghan of Spokane,  
Wash., sister of the late Ensign John  
R. Monaghan, in whose honor the de-  
stroyer is named, grasped the bottle  
of American champagne, wrapped in  
the Stars and Stripes, and crashing it  
upon the vessel's bow, exclaimed in a  
loud and firm tone: "I christen thee  
Monaghan." Many naval officers and  
representatives of the Navy Depart-  
ment at Washington witnessed the  
launching.

The naming of the new destroyer  
after the late Ensign John R. Monag-  
han commemorates one of the bravest  
acts in the history of the American  
Navy. Ensign Monaghan was a Spo-  
kane boy. He lost his life in an en-  
gagement with the Samoans near  
Apia, Samoa, April 1, 1899, in which  
seven members of an allied force of  
107 British and American sailors and  
marines lost their lives, three of the  
seven being officers. His death was  
due to his determination to stand by  
his wounded comrade, Lieutenant  
Philip V. Lansdale, U. S. N., who com-  
manded the American detachment of  
fifty-nine men. When last seen alive  
he was defending his wounded com-  
rade single-handed against a horde of  
savages.

## GREAT RABBIT HUNTING.

## Hundreds Killed in Drive to Ex- terminate Them at Etlopia, Wash.

Spokane, Wash., Feb. 18.—Three  
hundred residents of Etlopia, Wash.,  
including merchants who closed their  
stores for the day, dispatched several  
hundred rabbits in a drive near that  
town. The jacks were driven into a  
Y-shaped inclosure of woven wire,  
where the drivers made short work of  
them with clubs. The wire corral was  
more than 2,000 feet in length and as  
the jacks dashed against it the recoil  
hurled them back eight to ten feet. The  
drivers, armed with stout clubs, also  
killed 200 rabbits before the corral was  
reached. Following the drive the  
ranchers served lunch and hot coffee.  
Another drive has been arranged for  
today, when it is expected there will  
be hunters from various parts of  
Washington and Oregon. The rabbits  
have caused much annoyance to  
ranchers and orchardists in the ir-  
rigated districts, and the growers have  
decided upon a series of drives to rid  
the communities of the pests. There is  
an element of sport and this has  
proved attractive to those who join  
the ranchers in the day's outing.

practically the life of a hermit. Scien-

## EXPERIMENTAL PAPER MILL IS OPENED BY U. S.

Government Will Test the Commer-  
cial Value of Certain Kinds  
of Woods for Paper  
Making

## PLANT AT WAUSAU, WISCONSIN

Extensive Tests Have Been Conduct-  
ed by Department of Agriculture  
and Actual Manufacture Will  
Now Be Tried.

Washington, D. C., Feb. 18.—With a  
view to gathering information as to  
the relative value of plants and woods  
for paper manufacture, an experi-  
mental ground wood pulp mill, which the  
department of agriculture has located  
at Wausau, Wis., has commenced  
operations. The mill was made avail-  
able by the appropriation at the last  
session of Congress, which authorized  
the secretary of agriculture to con-  
duct tests along this line.

The department for some time has  
been testing various woods in the lab-  
oratory. Some have been found to be  
suitable for pulp manufacture and the  
forest service has actually made  
paper from several of them by chemi-  
cal means.

To ascertain their commercial value  
it was necessary to subject them to  
methods of manufacture comparable  
to those which are employed in actual  
business operations. With this end in  
view the mill was established.

The Wausau mill is practically a pa-  
per making establishment in mini-  
ature, being equipped with apparatus  
of the most up-to-date type. It will  
be operated as long as experiments  
may require.

recess of four weeks the supreme  
court of the United States will meet  
again Monday. Marked public in-

## BATH TUB MEN SEEK IMMUNITY IN THE COURTS

Individual Defendants in Govern-  
ment's Criminal Case Against  
"Trust" Want Action  
Dismissed

## THEIR PLEA WILL BE OPPOSED

Department of Justice Will Fight Ap-  
plication, and Will Base Con-  
tention on Ruling by U. S.  
Circuit Court.

Detroit, Mich., Feb. 18.—Alleging  
that the individual defendants in the  
government's criminal case against  
the so-called bath tub trust have been  
granted immunity by the course of the  
government in the civil suit begun in  
Maryland, the attorneys for the de-

partment of justice will immediately  
prepare its opposition to the granting

expected the action of the defendants' at-  
torneys caused some surprise. The  
United States Circuit Court at Balti-  
more recently ruled the government  
could prosecute simultaneously both  
criminal and civil suits against the

## LOOK OUT FOR IT!

Beware of cienda septendec! Cienda  
is en route. In ordinary language it  
is known as the seventeen-year locust.  
This is the Anno Domini in which the  
destructible insect saunters forth to  
destroy whom it will.

The department of agriculture at  
Washington has sent out notifications  
of the appearance of the locust that  
was sixteen years in developing into a  
pest.

In New York, so Uncle Sam allows,  
cienda already has caused much dam-  
age to trees and shrubbery. Strict  
vigilance will be required this year for
